Dealer Comments
This used 2023 Land Rover Range Rover feels like the easy part of owning a luxury SUV - the seats warm up, the kids argue less because there is actually room, and the sunroof makes every drive feel longer in the best way. With only 33,475 miles it still drives like a recent-model Range Rover, and the rear camera plus steering wheel controls make daily driving simple. Power mirrors and tinted windows add convenience and privacy. Features include: sunroof, rear camera, power mirrors, steering wheel controls and tinted windows.
